ABOUT

3D digital artist with strong background in AR, VR, prop making, environments and texturing. Passionate and observant. I pride myself on delivering quality work, bringing a decade of experience in a variety of projects, and media including games, arch viz, urban design, virtual reality, augmented reality and film.

SOFTWARE PROFICIENCY

TECHNICAL SKILLS

Art: Environment and prop artist

Unity, Unreal, 3D Max, Maya, Zbrush, Blender

Fluent at optimised game environments.

Experience in low, real time and pre-rendering modeling, using a variety of techniques including: sub-d modeling, poly modeling and high res sculpting.

Experienced in using physical based rendering and stylized methods shader styles.

Able to work within a project scope and adhere to an art direction.

Texturing

Substance Painter, Substance Designer, Mari

Hand painted textures that show appropriate form, lighting and material qualities.

Creating details from bakes such as normal maps, curvature and ambient occlusion from high polygonal objects for enhanced realism.

Painting on 3D objects directly with Zbrush and Mari.

TECHNICAL SKILLS (CONT.)

2D Digital Artist

Photoshop, Illustrator, Indesigner

Confident and apt at creating graphics using pixel data and vector graphics with design, function and beauty in mind.

Experience at graphic and web design jobs prior to being a 3D digital artist at multiple jobs.

Exceptional skills at using photography and photo manipulation skills to merge 3D architectural elements.

Concept artist for generating ideas and designs prior commencing the 3D work to stimulate conversation with directors and clients.

WORK EXPERIENCE

Projects and work environments

[🔗 Neuromersive](#) · 2020

3D Modeling optimized for VR Oculus Quest

Virtual reality project: a realistic modern home to help patients with recovery of movement and fine motor skills. My main remit is making home props and highly detailed architecture models and optimising them for Quest.

[🔗 Virtual Method](#) · 2019

3D Modeling optimized for VR Oculus Quest

Virtual reality presentation for Konica Minolta presenting a high volume of scenes in an ambitious time frame including animation and visual effects elements with low triangulation.

[🔗 Platar](#) · 2018-9

3D Modeling in unity and platar engine

Multiple augmented reality projects for clients such as Murray River Tourism, Tasmania Tourism, CUB and more. Many of the projects presented multiple scenes with high volume of objects with a low polygon count.

[🔗 Phoria](#) · 2018-9

3D Modeling unity for Augmented Reality

Multiple environments for Melbourne city: SmallBall Little Land, Abbotsford Convent. Mainly to encourage user's discovery of city landmarks.

WORK EXPERIENCE (CONT)

✉ [Zero One Animations](#) · 2018

3D Modeling for VR in unreal with 3D Max

Optimising a virtual reality sport wear shop in Paris for Adidas. I created assets in 3ds Max 2010.

✉ [Urban Circus](#) · 2016-2019

3D Modeling and 2d architecture viz. 3ds Max and PS

A vast collection of projects for urban landscaping for government projects: VR Unity project for Melbourne Metro, Victoria Library 2020 Vision, Metro Tunnel, Vic Roads, North East Link, Yarra Trams. I focused on creating 3D environments based on CAD and satellite data. I also composited 2D images in Photoshop combined with 3D Designs to create Arch Viz concepts.

✉ [Inn Between Worlds](#) · 2016

3D Modeling using 3ds Max, Zbrush, Substance, Unity

A RPG game: I was an environment artist for Odd Gods game. It was my responsibility to create a majority of the objects in the game's universe using a 90s horror aesthetic in preparation for the demo.

✉ [TAB Corp](#) · 2016

3D Modeling for unreal with Maya and Substance Painter

An Environment and buildings project for a betting game. I was in charge of creating background props.

✉ [Tantalus](#) · 2014 - 2015

2D Hand painted textures and 3D Modeling Maya

Environment and character re-texture artist for the game: The Legend of Zelda: Twilight Princess HD (Nintendo Wii U) I mainly used Photoshop to create high definition artistic touches to match the already existing textures of the original game.

✉ [GOATi Outsourcing](#) · 2014

3D Modeling and texturing for real time

Worked on a Car Racing 22, Car Training VR, Marvel.

Nissan GTR Racing game · 2014

3D Environment texturer and modeller. Photoshop

I created a birdseye texture for the track and terrain with some road racing props. Most of the work was created using Maya, Zbrush for a Unity Project.

✉ [Zero One Studios](#) · 2013-5

Retopology in Topogun and 3d max 2010

I converted CAD industrial shoes for making interactive friendly Shoes for Adidas with the aid of Topogun and Max

WORK EXPERIENCE (CONT)

JCG Hart · 2013-2014

3D Modeling for unity in 3ds max

I created various 3D architectural environments and furniture assets for interactive devices and augmented reality.

Freelance ✉ pacocasares.com · 2012~present

3D Digital artist for clients

I worked on a number of different projects including making assets for digital games and collateral for: The Nun VR, Snobal, HM Group, A Thin Black Line, Dejatu, Valis AR, Minecraft Little Melbourne City, Real Response, Natural Pools.

Myka · 2011

Graphic design, web design, product photography

Jewelry company focused on selling fashion items.

EDUCATION

RMIT University

Bachelor of Design (Games)

GPA: 3.9 with High Distinction

Digital Art course focused on Game Design and Graphics based for games. Mainly learned Maya, Photoshop, Unity and Zbrush with strong emphasis on Game Design.

La Trobe College

Diploma of Media and Communication

Learned Graphic Design, Web Design, Video Editing and fundamentals of Illustrator and Photoshop.
